

Vortok Clip-on Insulator & Cableguard

**REDUCING SERVICE INTERRUPTIONS
MAINTENANCE COSTS & TRAIN DELAYS**

• VORTOK CLIP-ON INSULATOR

Use the Clip-on Insulator where there is risk of cables or connecting rods touching the foot of the rail, to help retain insulated block joints, to prevent earth current leakage from causing rail foot corrosion and to isolate rails from bridge steelwork and many other uses.

* Installs in seconds without tools

* Immediate solution to common problems

* Flexible insulating PVC polymer

* Improves network reliability

* Reduces maintenance costs

* Helps reduce service disruption and train delays

* Available in custom lengths to suit your requirement

**PREVENTS TRACK CIRCUIT FAILURES
BY CREATING AN INSULATING LAYER
BENEATH THE RAIL**
