# Vortok Lighting Mast Support

## ENGINEERING SOLUTIONS FOR RAILWAY MAINTENANCE

### Simple Assembly—Slot on and lock—Drop in Mast

This new attachment has been developed to facilitate the support of lighting masts to the Vortok Safety Barrier. The support unit is simple and quick to assemble and remove and significantly reduces the amount of equipment on site, saves space and keeps the cabling tidy and thus, safer.

#### Features:

- Fast attachment to the fencing upright 5-10 seconds
- No tools required
- Telescopic grp mast low weight and strong, yet insulating
- Plated steel for toughness
- Simple locking pin
- No Ballast penetration

#### Giving:

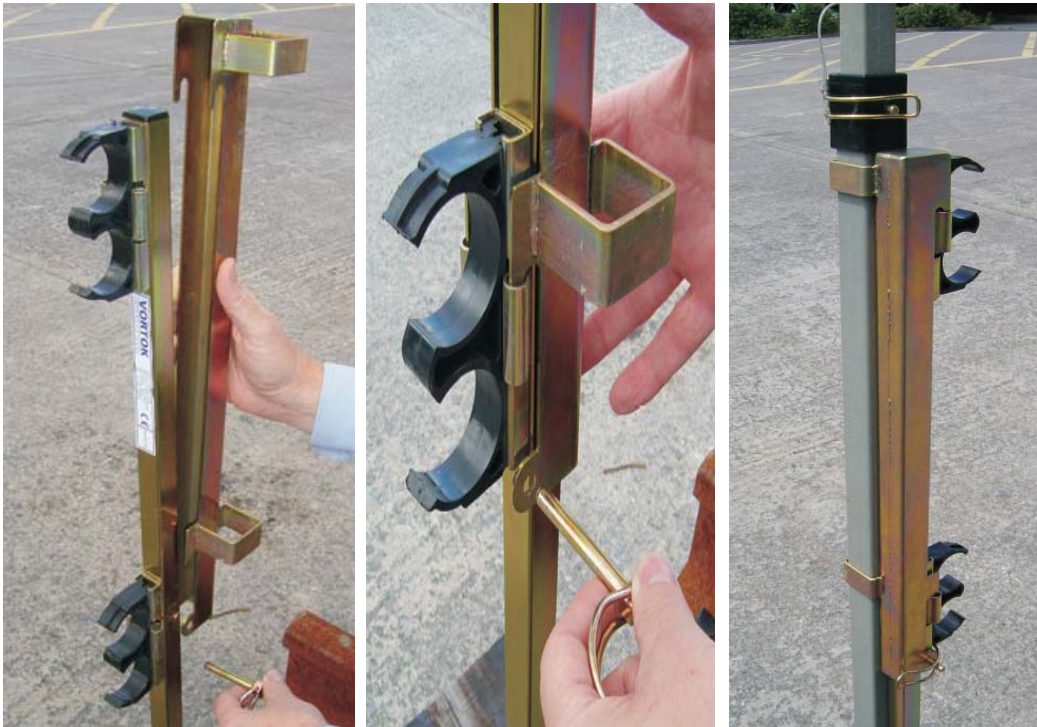

- Fast erection to prepare as worksite
- Fast strip down to clear a worksite
- Low weight for easy handling to and from worksite
- Tidy worksite
- Easier control of cabling (can be interlaced with poles to reduce trip hazards)

Safety and work planners should take its use into account for the forthcoming autumn and winter night time projects.

### No Ballast Penetration—Neat Cable Runs

### Fast Installation—No Tools Required

### Uses the Vortok Safety Fence arms to support a light mast
